Molly:

The Pinnacle NPDES Permit and Fact Sheet are attached. The permit was reissued with the continuing requirement to implement and maintain the Nutrient Offset Plan. The permit requires progress reports every six months.

Could you answer Ms. Riddle's questions below? Attached is what I sent her last week regarding Pinnacle – their permit and the fact sheet.

I also sent her the Lewes permit and fact sheet and your Powerpoint presentation – let me know if you need those. Thank you!

Molly

Hi Molly—just a quick question. I'm a little confused by the terms of the Pinnacle plant; the fact sheet that you sent has good details about the nutrient offsetting program from the previous permit, but are they still doing nutrient offsetting or trading now? If so, do you have any information on it? Thanks and have a great weekend,

Anne

Anne,

We would be happy to review portions of the report related to DNREC for accuracy.

Hi Molly—thanks so much for doing this. I've cc'd Rob Underwood, who I had the original conversation with, and will get back to you both in a few days if I have questions. If I may ask, would you be willing to look over our completed report to make sure we haven't made any mistakes, or omitted anything important? We like to do this so our published work is as accurate as possible. Thanks again,

Anne

Ms. Riddle,

In response to your May 22, 2012, request for water quality trading program information for Vlasic Foods and the Town of Lewes and their NPDES permits, the Surface Water Discharges Section (SWDS), Division of Water, Department of Natural Resources and Environmental Control, responds:

Please see the attached NPDES permits, fact sheets and a PowerPoint presentation about nutrient trading. Please let me know if you have any questions.

Just an FYI, the SWDS generally includes programs related to Concentrated Animal Feed Operations, Biosolids, Municipal Separated Storm Sewer Systems, Industrial Storm Water, National Pollutant Discharge Elimination System, Pesticide, and Wastewater Construction permits.
